

Castle Rock

ELDER CARE MANAGEMENT

Who We Are

Castle Rock Elder Care Management (Castle Rock) was founded in 1995 to serve persons in the greater Boise area with aging related issues, mental health, traumatic brain injury, or developmental disabilities. We also assist families who live out of the area by providing care management services for their loved ones. If a family member has been appointed as a guardian, we can assist them with their guardianship responsibilities. We do not directly manage our client's finances; we network with conservators, trust departments, and families to address estate or financial issues.

Our goal is to provide peace-of-mind by helping you or your loved one maintain a dignified and safe lifestyle that honors your/their values and choices with as much independence as possible.

What We Do

CARE MANAGEMENT

Our experienced, professional Care Managers work with families, clients, conservators, attorneys, banks, and others to meet the individual's unique needs. Castle Rock representatives assure that doctor's orders are followed, medications are ordered, and the appropriate support services are in place. Care Management services often include regular home visits to assess your loved one's status and needs. We are there to comfort, assist, and advocate for the best possible results during doctor appointments, emergency room visits, and hospitalizations. We work with healthcare discharge planners and social workers to assure a smooth transition home with homemaking, shopping, and support services in place. We keep you up-to-date about your loved one's care and status every step of the way.

ASSESSMENT AND EVALUATION

We gather psychosocial histories, as well as medical and personal information, to create an assessment that will determine the care and services you or a loved one may require. Based on this information, our Care Managers will consult with you to create an individualized, value-based Care Plan.

LIVING WILL AND DURABLE POWER OF ATTORNEY FOR HEALTH CARE

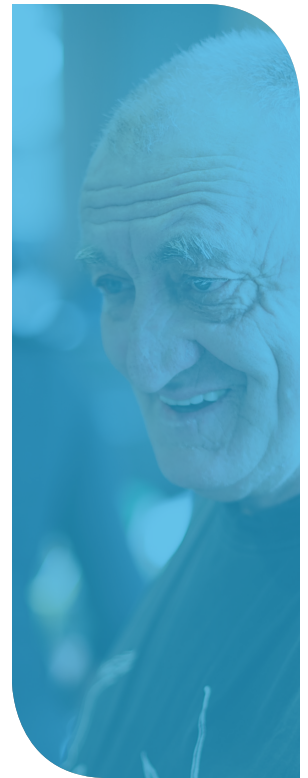

Castle Rock Services can provide you with a convenient and cost effective way to plan for your health care needs. You can be secure in knowing we will be there when you need us, to advocate for you, and to ensure the medical choices you desire will be carried out as planned.

HOUSING & RELOCATION

We will help find a living situation that meets your needs, including senior care communities and nursing homes. We often help families relocate their loved ones in or out of the greater Boise area. Castle Rock will coordinate your move to be as stress free as possible.

GUARDIANSHIP

Upon court appointment, Castle Rock arranges care and services for the protected person (client), based on their life values and best interests. We work with the client and their loved ones, whenever possible, to make informed and mutually agreeable decisions about care and placement so their medical, social, and emotional needs are being met.
